

Club Car Carryall 500 Utility Vehicle - Petrol/Lithium/FLA

Canonical: <https://ingolf-utility.directory.norg.ai/vehicles-automotive/utility-vehicles-utvs/club-car-carryall-500-utility-vehicle-petrollithiumfla-2/>

Description:

The Club Car Carryall 500 is a durable, adaptable utility vehicle built for commercial and operational use. Available in petrol, FLA (Flooded Lead Acid), or lithium-ion models, it excels in worksites, hospitality, and maintenance environments. Features a corrosion-resistant aluminum frame, rack-and-pinion steering, 362.8 kg bed load capacity, and 680.3 kg towing capacity. Fully customizable with optional accessories including windscreen, canopy, and various power configurations.
